

Relianox™

Critical Cleaning Liquid Detergent

Relianox™ is the ideal critical cleaning liquid detergent for use in laboratories, clinics, hospitals, pharmacies, veterinary facilities, cleanrooms, and industrial facilities. It is a safe, commercial-grade detergent that has been extremely effective for over 30 years in cleaning glassware, instruments, rubber, plastic, metal components, surfaces, equipment, tanks, and numerous other applications. This phosphate and soap-free concentrated detergent is easy to use and offers superior activity for highly effective cleaning in critical environments. It is a professional, FDA-compliant cleaner for numerous contact surfaces.

SKU	Size
P3023-85	3.8 L
P3023-87	3.8 L Case (4 x 3.8 L)

(Recommended 1 oz. per gallon dilution would yield 128 gallons of detergent solution.)

Benefits:

- ✓ **COMMERCIAL GRADE** – Critical environment detergent for commercial applications trusted for over 30 years
- ✓ **CONCENTRATED** – Dilute 1:128 (mix 1 oz. Relianox™ to 1 gallon water)
- ✓ **PHOSPHATE FREE** – Formulated with anionic and nonionic detergents and specific wetting agents
- ✓ **Non-Corrosive**
- ✓ **EASY TO USE** – Highly concentrated liquid detergent that dilutes immediately to provide superior cleaning power
- ✓ **Use in Ultrasonic and automated cleaning systems**
- ✓ **SOAP-FREE** – Does not leave insoluble soap films
- ✓ **Use in presoak or manual cleaning systems**
- ✓ **MILD** – Solutions have a neutral pH of 7 so it is easy on hands after repeated use
- ✓ **Non-abrasive** (won't scratch surfaces)
- ✓ **SAFE** – Does not contain bleach, acids, or caustic agents that can etch surfaces or harm the environment
- ✓ **Will not leave grit or soap scum**
- ✓ **BIODEGRADABLE** – Readily degrades in waste streams and complies with the EPA's criteria for an industrial detergent
- ✓ **Use for cleaning validations and inspection approvals**
- ✓ **Economically priced**

Intended Use:

To remove water soluble and water insoluble substances, including grit, grime, grease, oils, blood, tissue, residue, particulates, soiled surfaces, deposits, chemicals, solvents, and much more.

Contains:

Sodium Laureth Sulfate (anionic detergent and surfactant), Laramide DEA (non-ionic surfactant), Sodium Dodecylbenzenesulfonate (detergent/disinfectant), Sodium Xylene Sulfonate (wetting agent/surfactant), colorants.
