

## RocketMolds™

### Suppository Compounding Molds

**RocketMolds™** are a new and innovative, patent-pending disposable mold containment system designed specifically for compounding pharmacists. They allow efficient compounding of suppositories within an easily sealable container that is also patient-friendly.

#### Benefits:

- ✓ For vaginal and rectal suppositories
- ✓ Easy-to-fill wide opening connected in a **string of 10 molds**
- ✓ Designed to securely stand up and close in our RocketMolds™ Suppository Compounding Mold Holder
- ✓ Molded from a flexible FDA compliant polymer and UV inhibitor for maximum compatibility
- ✓ Does NOT contain PVC
- ✓ Transparent for easy visual of contents
- ✓ Easy-to-read graduated fill line for accurate filling
- ✓ Durable - retains its shape with no waste typical of thin wall shells that can be damaged in transit.
- ✓ Easy patient "Flex Tab & Squeeze-Out" dispensing directly into an SRx applicator without handling the dose.
- ✓ One piece design with an easy-to-seal snap shut cover:
  - No more heat sealing
  - No more contents leaking
  - Contents retain their shape even if melted
- ✓ Designed to individually twist-apart for easy counting and dosing
- ✓ Various colors available for easy visual dose recognition
- ✓ Added UV inhibitor
- ✓ Heat resistant up to 80°C.
- ✓ Made in the USA
- ✓ Recyclable
- ✓ Comparably priced vs. traditional peel-apart PVC shells

## RocketMolds™

Suppository Compounding Mold Holder

SKU	Qty	Description
E0544-00	Each	Without LED backlight
E0540-00	Each	With LED backlight

**Accommodates 1.3 mL, 2.0 mL & 2.4 mL RocketMolds™.**

Cleanable and durable polymer construction with two channels that will accommodate 60 total RocketMolds™ (all sizes available). Also works well with traditional PVC type shells. Holds approximately 60 PVC type shells. With non-slip feet to keep holder secure on smooth surfaces while compounding.

## RocketMolds™

Suppository Applicator (2.0 mL-3.0 mL)

SKU	Qty
E0571-140	30/pk
E0571-141	90/pk
E0571-144	180/pk

**Accommodates 2.0 mL & 2.4 mL RocketMolds™**

Clean and comfortable applicator design that snaps on to RocketMolds™ for easy transfer directly into the applicator without handling the dose. Individually wrapped for quality assurance.

## RocketMolds™

Suppository (2.0 mL-2.4 mL) & Tablet Applicator

SKU	Qty
E0568-140	30/pk
E0568-141	90/pk
E0568-144	180/pk
E0568-77	360/pk

**Accommodates 2.0 mL & 2.4 mL RocketMolds™**

Clean and comfortable applicator design that snaps on to RocketMolds™ for easy transfer of the suppository directly into the applicator without handling the dose. Also designed for easy and comfortable tablet application. Individually wrapped for quality assurance. This applicator is a registered medical device in both US and Canada. CE Mark compliant.

## RocketMolds™

Suppository (1.3 mL) & Cream (1-4 g) Applicator

SKU	Qty
E0572-140	30/pk
E0572-141	90/pk
E0572-144	180/pk
E0572-77	360/pk

**Accommodates 1.3 mL RocketMolds™**

Clean and comfortable rounded end applicator design that snaps on to RocketMolds™ for easy transfer of the suppository directly into the applicator without handling the dose. Also designed for cream application with graduated fill marks at 1 g, 2 g, 3 g & 4 g dose increments based on 1 g/1 mL. Individually wrapped for quality assurance. This applicator is a registered medical device in both US and Canada. CE Mark compliant. Threaded tip easily screws on to many cream and gel tubes with a #16 thread.
