

## Syringes

### Oral Dispensing w/ Tip Caps

Our Oral Dispensing Syringes w/ Tip Caps are an FDA-registered medical device manufactured in an ISO 13485 facility. These oral and topical dispensers are designed uniquely for the compounding industry. With quality in mind, these dispensers were tested against graduated capacity and leak-resistance using BS/EN ISO 7886-1 – the standard used for sterile hypodermic dispensers.
